Gas & LNG Contract Negotiations

www.londonpetroacademy.co.uk

Gas & LNG Contract Negotiations

The Gas & LNG Contracts Negotiation Course is an intensive, practice-focused program designed to equip energy professionals with the legal, commercial, and strategic skills required to negotiate, draft, and manage gas and LNG contracts in a rapidly evolving global market.

Through a combination of expert-led lectures, case studies, and practical negotiation exercises, participants will gain an in-depth understanding of how to structure and negotiate Gas Sales Agreements (GSAs) and LNG Sale and Purchase Agreements (SPAs) in line with current market trends, decarbonisation imperatives, and regulatory challenges.

This course blends real-world insights from international arbitration, contract negotiation, and market dynamics, providing a unique learning experience for commercial managers, legal counsel, negotiators, and policymakers operating across the gas and LNG value chain.

LOCATION

Doha, Qatar

London, UK

Bali, Indonesia

Bangkok, Thailand

Dynamics

Analyse how global gas and LNG market dynamics influence negotiation leverage and pricing strategy.

Terms

Identify and negotiate key commercial terms in Gas Sales Agreements (GSAs) and LNG Sales and Purchase Agreements (SPAs).

Structuring

Structure and manage complex contract negotiations under shifting regulatory and policy environments.

Decarbonisation

Integrate decarbonisation and ESG requirements into gas and LNG contracts

Compliance

Address regulatory challenges, including sanctions, export controls, and trade policy, through contractual safeguards.

Resilience

Manage changed circumstances such as price volatility, change in law, and supply disruption through robust drafting.

Balance

Apply negotiation techniques to achieve balanced, enforceable, and future-proof gas and LNG contracts.

Course Objectives

LONDON PETRO ACADEMY
Empowering Professionals for a Sustainable Future

Day 1

Market Context and Contract Foundations

- Global gas and LNG trends shaping negotiation strategy and deal structure
- Contracting structures for gas and LNG supply
- Regional trends in gas and LNG contracting practices
- Governing law, contract formation, and enforceability
- Practical analysis of negotiation positions in gas and LNG deals

Day 2

Structuring the Deal and Negotiating Key Terms

- Designing negotiation strategy to secure stakeholder alignment
- Negotiation process: developing and negotiating the term sheet
- Key commercial terms in Gas Sales Agreements (GSAs)
- Key commercial terms in LNG Sale and Purchase Agreements (LNG SPAs)
- Negotiation exercise: refining commercial clauses in GSAs and LNG SPAs

Day 3

Executing, Reviewing, and Renegotiating Contracts

- Price review and renegotiation strategies in gas and LNG agreements
- Handling change-in-law, hardship, and unforeseen regulatory interventions
- Contract evolution: emissions certification and ESG disclosure
- Managing regulatory risk: sanctions, export controls, and trade policy shifts
- Case studies: dispute resolution options in gas and LNG contracts

Agnieszka Ason

Agnieszka Ason is a leading gas expert with a robust track record as an expert witness in landmark, multi-billion-dollar LNG price review arbitrations. Having previously worked at top-tier international law firms in Berlin and London (Freshfields, Baker Botts, Three Crowns) on a wide range of oil & gas matters, she developed a deep specialism in gas markets and contracts, spanning European pipeline gas agreements and global LNG transactions.

Agnieszka acts as a strategic advisor, expert witness, international arbitrator, and CEDR-accredited mediator. Her advisory work spans the gas value chain, with a particular focus on the structuring and interpretation of gas supply contracts (GSAs, LNG SPAs, and MSPAs). She has also advised on tolling agreements, joint ventures, gas processing and terminal use contracts in several jurisdictions. Her arbitration work includes both price and non-price disputes, covering issues such as delivery shortfalls, diversions, profit sharing, and delivery schedule or quantity adjustments. She frequently advises on novel contractual challenges, including decarbonisation requirements and the commercialisation of clean gases. In parallel, Agnieszka is a Senior Research Fellow at the Oxford Institute for Energy Studies, where she has published high-impact research, including papers on International Gas Contracts (2022) and Price Reviews and Arbitrations in Asian LNG Markets (2019). She has also contributed several book chapters, edited gas-focused volumes, and maintained a strong academic presence over the years, including through guest lectures and LNG workshops at the London School of Economics. She also serves as course director for an industry-leading Certificate in LNG.

A recognised authority in the sector, Agnieszka has delivered board briefings and executive training for major energy companies, government agencies, trade associations, and investment banks. Agnieszka is also a frequent speaker at high-profile industry events, has chaired the LNG Summit at Flame, and has provided expert commentary on gas matters to Bloomberg, Reuters, and the Financial Times.
